

NEW RAVENNA
Company Profile

New Ravenna is America's premier designer and manufacturer of stone and glass mosaics for both residential and commercial installations. The company's products are handcrafted and are fashioned into decorative borders, murals, fields and medallions. Stone and glass are cut and assembled by artisans at the company's studio in Virginia to create distinctive styles, subtle shade variations and textures. The results are custom works of art, which often incorporate the designs of architects, interior designers and their clients.

New Ravenna mosaics are sold through nearly 200 exclusive designer showrooms across the country and internationally. The company provides design services along with on-site supervision of installations. New Ravenna mosaics have been featured in national architectural and interior design magazines and can be found in luxury homes, restaurants, hotels, casinos and resorts around the world.

New Ravenna was founded in 1991 by Sara Baldwin, a native of Virginia's Eastern Shore. Sara and her design team oversee the research and development arm of company through the Sara Baldwin Design Studio. Prior to founding New Ravenna, Sara earned a bachelor and master's degree in fine arts from The University of Pennsylvania. Her breath-taking designs have gained international attention, and new designs are introduced each year.

New Ravenna employs more than 100 people and is one of the largest employers in Northampton County, Virginia. In 2000, the company received the Virginia Vanguard Award from the Virginia Chamber of Commerce for being the fastest growing manufacturing company in the Commonwealth.

New Ravenna honors the rich history of mosaic as an art form and updates it with modern design aesthetics. The quality of these exquisite mosaics is unparalleled.
